Andy,

[All headers](#)

I just wanted to express my feedback to you in using your services for my move that occurred on Saturday, March 25, 2006 from Farmington Hills, MI to Bloomfield Township, MI. Initially, I had contacted your company and spoken with Kris. We scheduled a time for him to come out to my apartment in Farmington Hills and write up an estimate. Kris was both prompt, respectful, honest, and knowledgeable. He was a large part of me making my decision to utilize your company. He made me feel safe and secure in the services that Professional Movers Inc. had to offer. Then, the actual move date came. Kris had supervised the move and assisting him were two other men, who were also very respectful. Each man on the day of the move worked diligently and with great regard for me as a person and my belongings. I felt it necessary to express my words so that they will be recognized for these accomplishments. I thank you, Andy, for your services and the tight-knit process that you have in running your business. I will make sure to spread the word about your business, and in particular, recommend working with Kris because of what he has shown to me throughout this process.

Thanks again Andy. Best wishes to you and your business.

Kim Jeska
