Sharon;

I needed to take this time to express our family's sincere gratitude for your assistants. Yesterday we moved our parents into your Fox Run facility here in Michigan, part of the Erickson Retirement Communities. I am thoroughly impressed with the whole moving process!

We opted to use both the moving company (Professional Movers); and what I refer to as the packers (Moving Forward), the folks who personally boxed my parents prized possessions and then safety unpacked and organized them in their new home. Andrew's movers were quick and professional and LouAnne's packers were sensitive and caring about my parent's things. I was impressed with both of these companies.

I know from what I speak. I am a Facility Manager at Pfizer, responsible for over a million square feet of complex buildings. I was responsible for setting up the move program here in Ann Arbor.

Sharon, we truly appreciate your team's efforts!!! You thought of everything including stopping by to make sure everything went well and giving my parents a nice little welcoming gift.

We are looking forward to many years of enjoyment with our folks within the Erickson Community!

Peter John Jansen, AIA
