We used Professional Movers in October of 2013 and we thought they were wonderful! From the moment I called to get a quote the staff was professional and attentive. They are competitively priced and easy to work with. When the day of the move came three men came out. They were extremely careful with our belongings and at the same time fast and efficient. We would happily recommend Professional Movers to family and friends and most defiantly will use them again! :) The name says it all true PROFESSIONALS! :)
