\$392 to move all my furniture to my new house. Don was really friendly and helpful and he gave me a great worst-case estimate of just under \$500, and said it would almost definitely be less. Despite all the narrow hallways and stairways with such inconvenient turns, none of my walls or furniture are damaged. And best of all, I'M not damaged from lifting heavy-ass furniture. Professional Movers was a solid choice. Bruce and Daniel made a good team and they really knew what they were doing.

From the first phone call to Mike, I made my decision that professional movers was going to be MY mover. I spoke to a few different places, and I did have a very bad moving experience before. I felt safe knowing I was working with people who care, who are kind and honest and respectful, and also, very patient with me during a very stressful time in my life.

It does not get any better than this. INTEGRITY, HONESTY, KINDNESS, AND PATIENCE. Thanks so very much!
